Secure SSL Encrypted Processing

From the moment the prospective booker initiates the booking process until the moment they leave the Receipt / Invoice Page, thankQ eEvents operates in a Secure SSL Encrypted environment. thankQ integrates a secure online payment gateway via recognised suppliers such as PayPal's Verisign gateway. This assures your clients of safe conventional transacting.

BackOffice Holding Pen

When a transaction has been successfully processed, the donor is issued with an on screen Tax Invoice / Receipt (which is also automatically emailed to them). All of the completed information automatically arrives in the thankQ BackOffice Holding Pen. All that remains is to de-dupe the booker / attendee information, accept the payment into a Web Events Batch and process their requirements; such as table seating or dietary needs.
